WASATCH COUNTY HOSPITAL

55 South Fifth East, Heber City, Utah 84032 / 801 654-2500

WAYNE T. TERRY, Administrator

MEMO

TO: All Staff Physicians

FROM: Janet Kelly, M.D., Chairperson, Education Committee

DATE: May 24, 1985

SUBJECT: Video Outreach Continuing Medical Education

The second video has arrived and will be available for viewing from May 24th through May 28th in the Education Room. Both of the tapes "Estrogen Therapy in Menopause: Indications and Complications" and "Medical Literature and the Private Practitioner" will be on the top left-hand shelf in the Doctor's Lounge. The video machine will be set up in the Education Room so that at any time a doctor is able to spend the necessary time he/she will be able to view either tape. We will keep the video machine available for the doctors in the Education room from now on. If it is not out, please see Randall Probst, Michelle Ludlow or Cheri Cowles and they will get it for you.

Hopefully, this will allow more physicians to be able to utilize these tapes. Be sure to take an answer sheet and evaluation for whichever tape you choose as well as the outline that goes with it. Turn the answer sheet into Cheri for your credit and be sure to sign the sign up sheet, however, please don't date it as we will be able to save you the \$5.00 fee if we send it in with only one date on it.
